### **DETAILED ACTION**

Applicant's election of Group VII, claims 9-18 is acknowledged. However, upon reconsideration of the claims, further restriction thereof is necessitated as follows:

#### ***Election/Restrictions***

Claim 9 contains the following patentably distinct species. A species election must be made from the serum protein to be reduced.

- A). IgE
- B). NGF
- C). Insulin
- D). Myoglobin
- E). ADA

Claim 13 contains the following patentably distinct species. A species election must be made from the peptide to be administered.

- A). SEQ. ID. NO. 1
- B). SEQ. ID. NO. 4
- C). SEQ. ID. NO. 5
- D). SEQ. ID. NO. 6
- E). SEQ. ID. NO. 7

Therefore, applicant must select one species of the serum protein to be reduced and one species of the peptide to be administered.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no

Art Unit: 1641

generic claim is finally held to be allowable. Currently claims 10, 12 and 14-18 are generic. Claims 9, 11 and 13 are subject to species election.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.
